PROFESSIONAL SUMMARY

Senior Software Engineer with 5 years of experience designing and delivering scalable, secure, and high-performance web and mobile applications. Specializes in front-end engineering with React.js and Next.js and cross-platform mobile development with React Native, supported by hands-on backend experience across Node.js, NestJS, Express.js, Hono.js, and Laravel. Published researcher with a track record of delivering complex products end to end, owning architecture and delivery, and mentoring engineering teams.

PROFESSIONAL EXPERIENCE

AKIJ iBOS | Dhaka, Bangladesh • On-site

Senior Software Engineer I

Aug 2025 – Present

- Led front-end development of Akij Air, a full-scale OTA flight booking ecosystem covering flight search, availability, booking, ticketing, cancellation, and refund workflows.
- Independently designed and developed the Akij Air mobile applications with React Native from the ground up, owning architecture, core functionality, API integration, performance optimization, and production delivery.
- Built complex, state-heavy booking interfaces driven by real-time airline data — dynamic pricing, fare and seat availability, and multi-step booking and payment flows — with a focus on reliability and consistency under high-concurrency traffic.
- Developed and maintained backend REST APIs for booking, ticketing, and refund operations, and contributed to backend architecture and database schema design alongside the backend team.
- Improved application performance and responsiveness through rendering optimization, efficient state management, and streamlined API consumption.
- Partnered with product, QA, and UI/UX teams to translate business requirements into production-ready solutions, and mentored junior engineers on clean architecture, SOLID principles, reusable components, and code quality.

Flight Expert (FEBD Ltd.) | Dhaka, Bangladesh • Dec 2021 – Aug 2025

Senior Software Engineer

Jan 2024 – Aug 2025

- Architected and developed scalable, secure, and user-friendly applications using Next.js and React.js for a high-traffic online travel platform.
- Optimized application performance and responsiveness through code splitting, rendering strategy improvements, and front-end performance profiling.
- Developed backend REST APIs and contributed to backend architecture and database design alongside backend teams, ensuring clean integration with front-end applications.
- Led code reviews and mentored junior developers, raising overall code quality and consistency across the team.
- Evaluated and introduced modern tools and technologies into the development workflow to improve delivery speed and maintainability.
- Conducted extensive usability, functionality, and accessibility testing prior to release.

Software Engineer

Jul 2022 – Dec 2023

- Delivered multiple production web solutions with React.js and Next.js, focusing on clean UI architecture and optimal user experience.
- Worked closely with backend teams on API design and integration for booking and travel-related services.
- Identified and resolved application performance bottlenecks, improving load times and runtime stability.

Frontend Developer

Dec 2021 – Jun 2022

- Built responsive, accessible interfaces across desktop and mobile breakpoints.
- Maintained code quality and long-term maintainability through established best practices and testing.

Junior Web Developer

Oct 2021 – Dec 2021

- Developed and deployed company websites using React.js and Node.js.
- Managed deployment and post-launch maintenance.
- Performed functional and cross-browser compatibility testing.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, SASS, Tailwind CSS, Bootstrap, Material UI, shadcn/ui, Ant Design

Mobile: React Native (cross-platform iOS & Android)

Backend: Node.js, NestJS, Express.js, Hono.js, Laravel (PHP), REST API development and integration, database design, Prisma

Databases: MySQL, PostgreSQL (Neon), MongoDB, Firebase, Convex, Appwrite

Architecture & Practices: Clean architecture, SOLID principles, MVC, OOP, scalable system design, database design, performance optimization, code review, technical mentoring

Tools & Platforms: Git, AWS, GraphQL, VS Code, Postman, Chrome DevTools

Languages: JavaScript, TypeScript, PHP, Python

EDUCATION

University of Asia Pacific | Dhaka, Bangladesh

B.Sc. in Computer Science and Engineering — CGPA 3.79 / 4.00

Oct 2016 – Dec 2020

- Vice Chancellor's Award (2x) and Dean's Award (4x) for academic excellence.

Rajbari Government College | Rajbari, Bangladesh

Higher Secondary Certificate (Science) — GPA 4.70 / 5.00

May 2012 – Aug 2014

RESEARCH & PUBLICATION

Identifying Counterfeit Medicine in Bangladesh Using Deep Learning

Published in the KES HSCI International Conference 2021 (Springer). [View publication](#)

Applied deep learning and computer vision techniques to detect counterfeit pharmaceutical packaging, addressing a significant public health challenge in Bangladesh.
